Contract

TRUK-1750 Test Framework

NQC LIMITED

UK7: Contract details notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2024/S 000-000701

Procurement identifier (OCID): ocds-h6vhtk-abd51d-dev

Published 10 October 2024, 5:14pm

Scope

Description

When linking to a framework or dynamic market via the API, there is validation that the OCID exists (R022), but not what it is. There is also validation that a lot/part has not been cancelled (R031), but not that it is active and not terminated. It's also possible to link to a FW/DM under a procedure that doesn't allow it. We need to validate that:

Linked framework is actually a framework

Linked DM is actually a DM

Linked thing is active - if awarding or signing a contract (UK6 or UK7), but allow flexibility to create DM in parallel with UK3 or UK4 (not currently possible to publish UK3 or UK4 when using framework) - and also allow not linking to DM at all in UK3 because UK13 might not have been published yet

FW/DM is only linked under an appropriate procedure type

Commercial tool

Establishes an open framework

A series of frameworks with substantially the same terms. Awarded suppliers are carried over and new suppliers can bid.

Framework

Open framework scheme end date (estimated)

31 December 2025

Maximum percentage fee charged to suppliers

1%

Framework operation description

Framework operation description

Include how prices are determined and any selection process for the award of contracts.

Award method when using the framework

With competition

Contracting authorities that may use the framework

Establishing party only
